IITP102 CreateTech >> Task 1.

Project Idea: A Food Recipe and Grocery Shopping App..

1. User Registration and Profiles:
   - **Users can create accounts with their name and email.**
   - **Users can edit their profiles, adding contact information.**
2. Product Catalog:
   - **The app features a variety of grocery products.**
   - **Each product includes a name, image, and price.**
3. Search and Filters:
   - **Users can search for specific products.**
   - **Filters for price ranges, brands, and dietary preferences are available.**
4. Shopping Cart:
   - **Users can add and remove items from the cart.**
   - **The cart displays the total cost and item quantity.**
5. Recipe Suggestions:
   - **The app provides recipe ideas with ingredients and instructions.**

>>**Additional features**<<

- The ability to create meal plans based on the user's dietary restrictions and preferences.
- The ability to share shopping lists and recipes with others.
- The ability to rate and review recipes.
- The ability to follow other users and see their recipes.
- The ability to integrate with other systems, such as loyalty programs and payment processors.
